

# Key Information Document (EU)

## Purpose

This document provides you with key information about this investment product. It is not marketing material. The information is required by law to help you understand the nature, risks, costs, potential gains and losses of this product and to help you compare it with other products.

CIM Europe S.à r.l. (the "**AIFM**") is required to produce and publish this document by Regulation (EU) 1286/2014 of the European Parliament and the Council on key information documents for packaged retail and insurance-based investment products, as amended by Regulation (EU) 2021/2268 (the "**Regulation**"). The AIFM is required to follow the Regulation's prescribed methodology in preparing the document, including for the determination of the Summary Risk Indicator and the calculation of the Performance Scenarios. The AIFM believes that the methodology prescribed by the Regulation for the preparation of the information in this document is primarily designed for packaged retail investment products rather than shares in this type of fund and, in the case of this specific product, produces results which, in the AIFM's view, could significantly differ from the Sub-Fund's results.

---

## Product

**Name:** Class A fully paid-up Shares of no-par value each in Carlyle European Tactical Private Credit ELTIF (the "**Sub-Fund**"), a sub-fund of Carlyle Private Markets S.A. SICAV-UCI Part II (the "**Company**"), RCS number: B274623.

**Manufacturer:** CIM Europe S.à r.l.

The AIFM is part of The Carlyle Group Inc. The Luxembourg Commission de Surveillance du Secteur Financier (the "**CSSF**") is responsible for supervising the AIFM in relation to this Key Information Document.

**ISIN:** LUADecARLYL4

**You are about to purchase a product that is not simple and may be difficult to understand.**

---

## What is this product?

### Type

Class A shares of no-par value in the Sub-Fund (the "**Shares**"). The Company is an open-ended, commingled fund organized as a multi-compartment Luxembourg investment company with variable capital (*société d'investissement à capital variable*) established as a public limited company (*société anonyme*). The Company has an umbrella structure consisting of one or more ring-fenced sub-funds and is registered under Part II of the Luxembourg law of 17 December 2010 relating to undertakings for collective investment (the "**2010 Law**"). The rights of investors and creditors concerning a sub-fund or which have arisen in relation to the establishment, operation or liquidation of a sub-fund are limited to the assets of that sub-fund. No sub-fund will be liable with its assets for the liabilities of another sub-fund. Investors do not have the right to exchange their investment in the Sub-Fund for an investment in another sub-fund of the Company.

Class A is a "Distribution Class". Accordingly, an investor subscribing for Class A shares will receive cash distributions in respect of such Shares, in lieu of having any amounts reinvested in additional shares of the same class.

Distributions will be made at the discretion of the Company's Board of Directors (the "**Board**") or its delegates and subject to certain restrictions imposed by applicable laws and regulation. Although redemptions are expected to be offered on a quarterly basis, the Sub-Fund offers limited redemption rights. Further detail on the redemption process can be found in the '*How long should I hold it and can I take money out early?*' section below.

### Term

The Sub-Fund has been established for ninety nine (99) years from its authorisation date. If the Board determines that: the Net Asset Value of the Sub-Fund and/or share class has decreased to, or has not reached, the minimum level for the Sub-Fund or share class to be operated in an efficient manner; changes in the legal, economic or political environment would justify such liquidation; a product rationalisation would justify such liquidation; or it is in the best interest of shareholders, the Board may, upon prior notice to the shareholders, compulsorily redeem all (but not some) shares of the Sub-Fund. The liquidation of the Sub-Fund for any other reason may only occur upon positive vote by shareholders of the Sub-Fund at a properly convened shareholders' meeting. Such resolution may be passed with no quorum requirement and by simple majority of the shares present or represented.

### Objectives

The Sub-Fund's objective and strategy is to produce current income across the cycle, by opportunistically allocating its assets across a range of credit strategies primarily in Europe. There can be no assurance that the Sub-Fund will achieve its investment objective. The Sub-Fund targets investments of approximately 70-80 per cent of its assets in private credit instruments provided such instruments are eligible investment assets as defined in the Prospectus, with the remainder invested in liquid investments such as broadly syndicated loans and bonds. The Sub-Fund does not have a particular target in relation to any industry, geography, or other market. The Sub-Fund is actively managed by the AIFM and does not give investors any discretion as to investments made by the Sub-Fund, and will not make use of a benchmark. The Sub-Fund may utilise asset management techniques such as using leverage for investment purposes as well as bridge financing, quarterly distributions and to fund expense disbursements and redemptions when liquid funds are not readily available and may incur indebtedness through any source as may be necessary or advisable to borrow up to 50% of the Sub-Fund's Net Asset Value to achieve its investment objective. The Sub-Fund may, but shall not be required to, hedge its exposure to currency risk.

### Intended Retail Investor

An investment in the Sub-Fund can only be made against a minimum commitment of at least €50,000. The product is intended for high-net-worth investors, private client fund managers, financial intermediaries and other retail investors, subject to any applicable laws and regulations in your jurisdiction, who are capable of evaluating the merits and risks of such an investment and/or who have received advice from their financial

intermediaries regarding such an investment. The Shares are only suitable for investors: (i) who understand the potential risk of capital loss and that there may be limited liquidity in the underlying investments of the Sub-Fund; (ii) who have sufficient resources to be able to bear losses (which may equal the whole amount invested) that may result from such an investment; (iii) for whom an investment in the Sub-Fund is part of a diversified investment program; and (iv) who fully understand and are willing to assume the risks involved in such an investment program. The Shares may be offered through financial intermediaries, which generally have client net worth thresholds and other requirements. Relevant investors should consult with their financial intermediary to discuss potential eligibility and suitability to invest in the Sub-Fund.

**Practical Information**

The Company's depository is The Bank of New York Mellon SA/NV, Luxembourg Branch. Further information about the Company can be obtained from the Company's prospectus (the "**Prospectus**"). The Prospectus, the latest annual report, and details of the prevailing net asset value per Share are available free of charge and written in English. These can be obtained, along with other information, by emailing [tadublin@seic.com](mailto:tadublin@seic.com).

**What are the risks and what could I get in return?**

**Risk indicator**

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you. We have classified this product as 3 out of 7, which is a medium-low risk class. This rates the potential losses from future performance at a medium-low level, and poor market conditions are unlikely to impact the capacity of the Sub-Fund to pay you. **Be aware of currency risk. You may receive payments in a different currency, so the final return you will get depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.** The summary risk indicator does not include all risks inherent in the Shares and therefore it does not represent the total risk to the investor. The Sub-Fund may invest in assets which have valuation and performance uncertainties and liquidity risk. The 'Other

relevant information' section gives more detail on the risks investors should consider. This product does not include any protection from future market performance, so you could lose some or all of your investment. If we are not able to pay you what is owed, you could lose your entire investment.

**Performance Scenarios**

**What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted. The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of a suitable benchmark over the last 10 years. Markets could develop very differently in the future.**

<b>Recommended holding period</b>	8 years		
<b>Example Investment</b>	€10,000		
		If you exit after 1 year	If you exit after 8 years
<b>Scenarios</b>			
<b>Minimum</b>	There is no minimum guaranteed return. You could lose some or all of your investment.		
<b>Stress</b>	What you might get back after costs (€)	9,264	8,956
	Average return each year	-7.4%	-1.4%
<b>Unfavourable</b>	What you might get back after costs (€)	10,045	10,817
	Average return each year	0.4%	1.0%
<b>Moderate</b>	What you might get back after costs (€)	10,521	14,788
	Average return each year	5.2%	5.0%
<b>Favourable</b>	What you might get back after costs (€)	11,030	16,142
	Average return each year	10.3%	6.2%

The scenarios are based on the thirteen-year gross unlevered performance of the following proxies: Cliffwater U.S. Direct Lending Index for the period between January 2011 to December 2018 and Lincoln European Senior Debt Index from January 2019 to December 2023. This proxy was adjusted by this share class fee structure to represent the net return profile for the Sub-Fund.

The figures shown include all the costs of the product itself but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. The stress scenario shows what you might get back in extreme market circumstances, and it does not take into account the situation where we are not able to pay you.

Unfavourable scenario: This type of scenario occurred for investment between (April 2019 – March 2020 (one year scenario)) and (January 2023 – December 2023 (eight year scenario)).

Moderate scenario: This type of scenario occurred for an investment between (May 2014 – April 2015 (one year scenario)) and (July 2013 – June 2021 (eight year scenario)).

Favourable scenario: This type of scenario occurred for an investment between (October 2011 – September 2012 (one year scenario)) and (October 2011 – September 2019 (eight year scenario)).

**What happens if CIM Europe S.à r.l. is unable to pay out?**

The investor may face a financial loss (equal to some or all of the investor's investments) due to the default of the Company. Such a potential loss is not covered by any investor compensation or guarantee scheme.

## What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

### Costs over Time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods. We have assumed: 1) In the first year you would get back the amount that you invested (0% annual return). For the other holding period we have assumed the product performs as shown in the moderate scenario. 2) EUR 10,000 is invested.

	If you exit after 1 year	If you exit after 8 years
<b>Total costs (€)</b>	365	4,914
<b>Annual cost impact (*)</b>	3.5%	3.5% each year

\*This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 8.8% before costs and 5.0% after costs. We may share part of the costs with the person selling you the product to cover the services they provide to you.

### Composition of Costs

One-off costs upon entry or exit		If you exit after 1 year
<b>Entry costs</b>	We do not charge an entry fee.	0 EUR
<b>Exit costs</b>	We do not charge an exit fee.	0 EUR
Ongoing costs taken each year.		
<b>Management fees and other administrative or operating costs</b>	2.50% of the value of your investment per year. This is an estimate based on anticipated costs over the next year.	259 EUR
<b>Transaction costs</b>	0.06% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	6 EUR
Incidental costs taken under specific conditions		
<b>Performance fees</b>	0.96% is the impact of the performance fee. The actual amount will vary depending on how well your investment performs. This is an estimate based on target performance.	100 EUR

**Entry Cost:** No entry costs are payable when you acquire shares in the Sub-Fund. However, certain financial intermediaries through which a Shareholder is placed in the Sub-Fund may charge such Shareholder upfront selling commissions, placement fees, subscription fees or similar fees on Shares sold in the offering that are paid by the Shareholder outside of its investment in the Sub-Fund and not reflected in the Sub-Fund's net asset value.

**Management fees and other administrative or operating costs:** Certain fund expenses and organisational and offering expenses have been paid by the fund sponsor during the establishment of the Company, these are included in the anticipated administrative and operating costs.

**Exit Cost:** Shares redeemed within 12 months of issuance will be subject to a 2% deduction of their net asset value. This does not account for that potential deduction. Otherwise, no exit fee is charged. However, the person selling you the product may do so.

## How long should I hold it and can I take money out early?

### Recommended Holding Period: 8 years.

Shares in the Sub-Fund are suitable only as a long-term investment for persons of adequate financial means who do not need near-term liquidity from their investment. We do not expect there to be a public market for our shares and thus it may be difficult for you to sell your shares.

Redemptions are expected to be offered quarterly at the Net Asset Value per Share as of the last business day of that quarter (each a "**Redemption Day**"). Redemption notices must be provided by 18.00 Central European Time at least thirty (30) calendar days prior to the applicable Redemption Day. Settlements of redemptions will normally be settled within forty-five (45) calendar days following the relevant Redemption Day. Applications to redeem Shares in the Sub-Fund received in respect of any single Redemption Day will only be accepted up to 5% of the Net Asset Value of the Sub-Fund as at the relevant Redemption Day. In exceptional circumstances and not on a systemic basis, the Company may make exceptions to modify or suspend the redemption programme if in the AIFM's reasonable judgment it deems such action to be in the Sub-Fund's best interest and the best interest of the Sub-Fund's investors. Each shareholder shall be required to hold their Shares for a minimum of 12 months provided they may redeem their Shares during this period subject to payment of an early redemption fee of 2% of the relevant redemption price.

## How can I complain?

If you have any complaints about the Company, or the conduct of the AIFM, as manufacturer, you may lodge your complaint in the following ways, as outlined on our website, <https://www.carlyle.com/cim-europe>. You can email us at: [complaints-luxembourg@carlyle.com](mailto:complaints-luxembourg@carlyle.com). Alternatively, you can write to us at: CIM Europe S.à r.l., Complaints Handling Officer, 2, avenue Charles de Gaulle, L-1653 Luxembourg, Grand Duchy of Luxembourg. Any complaints concerning the conduct of your distribution agent should be addressed to that distribution agent.

## Other relevant information

Investors should note that the tax legislation that applies to the Sub-Fund may have an impact on the personal tax position of their investments in the Sub-Fund. In arriving at a decision whether or not to invest in the Sub-Fund, prospective investors must rely on their own examination of the Sub-Fund, including the merits and risks involved. Prospective investors should carefully read and retain the Prospectus, and in particular, investors should have regard to the risk factors set out in the Prospectus. Prospective investors are not, however, to construe the contents of this document or the Prospectus as legal, accounting, business, investment, pension or tax advice. Past performance is not indicative of future performance. The Sub-Fund's past performance record and Prospectus are available at: <https://www.carlyle.com/carlyle-european-tactical-private-credit-fund>. The number of years for which past performance data is presented is zero years.
